### REMARKS/ARGUMENTS

In reply to the Notice of Non-Compliant Amendment mailed December 13, 2006, the Applicants enclose a replacement claim set showing the current amendments to the claims as well as the appropriate claim identifiers.

Furthermore, the response filed September 25, 2006 omitted to show the amendments made to Page 8 of the specification and are now included to this reply. The description has been amended at page 8 to avoid any possible ambiguity regarding the preferred embodiment of the invention. Basis for this amendment to page 8 can be found in Figure 1 and at page 9, lines 7-9 and page 12, lines 8-10 of the description.

The Applicants apologise for any inconvenience caused by the incorrect response filed September 25, 2006. The Applicants submit that these amendments introduce no new matter.

It is respectfully submitted that all of the Examiner's objections have been successfully traversed. Accordingly, it is submitted that the application is now in condition for allowance. Reconsideration and allowance of the application is courteously solicited.

Very respectfully,

Applicants:
